

HEALTH KIOSK FOR ALL (HEALTH4A)

OPTIMIZING HEALTH CARE DELIVERY WITH ACCESS TO VITAL HEALTH INFORMATION AND CARE AT INDIVIDUAL, COMMUNITY, WORKPLACE AND CLINICAL SETTINGS.

Motto: Fostering Health and Wellness for Everyone, Everywhere, and Every time.

CAPABILITY STATEMENT

WHO WE ARE: [Health Kiosk for All, Inc.](#), is a US-based Woman-owned health supplies, services, support and solutions company dedicated to increasing access to universal health care, improve health outcomes, and advancing holistic locally-driven solutions in the United States, Africa, and communities around the world through use of innovative self-check Health Kiosk technology, to screen for vital biometrics including quality measurement of heart rate, blood pressure, weight, body mass index (BMI) and Body Fat composition measure; with ability to save, email and print results; use of telemedicine, and referrals supported by a network of health care professional.

OUR VISION is to *foster health and wellness for everyone, everywhere and every time.* The **MISSION** of our Health and Wellness Model is to provide high quality health information, education, advocacy, services and facilities within the community that enhance wellness, restore health and hope for vulnerable communities. Our mission contributes to the Sustainable Development Goals (SDG) in health, wellbeing, gender equality, education and partnership to improve universal access to comprehensive, appropriate, affordable, efficient, equitable and quality essential health care through a strengthened health care system at all levels of care.

OUR CORE BUSINESS fosters access to quality healthcare for everyone, everywhere and every time through:

- **Global Health Consulting**-working with businesses and organizations to assess, design, develop, implement, monitor, evaluate and report on health and development programs in public health;
- **Health Kiosk Technology**-providing quick access to vital health information to accurately measure **Blood Pressure, Heart Rate, Weight, Body Mass Index (BMI), and Body Fat Composition** with long shelf life of 10-15 years, environmentally friendly, cost effective and efficient, with ability to save, email and print results;
- **Health & Medical Equipment Supplies** for diagnosis, surgery, patient monitoring and treatment;
- **Health Workforce Capacity Development**-in emergency response, occupational health and health systems;
- **Project Management**- supporting programs from design, start-ups, implementation, supervision, monitoring, reporting to closeout with dissemination of findings, lessons learned and best practices.
- **Monitoring, Evaluation, Research & Learning**- regularly track inputs, activities, outputs, outcomes and impacts of health and development activities to determine the relevance of objectives, efficacy of design and implementation, efficiency or resource use, and the sustainability of results; and
- **Strategic Partnership**- Health Kiosk For All, is a reliable partner for small or large organizations to achieve health and development goals, building long-lasting alliances with businesses, corporations, community and faith-based organizations, academic institutions, governments, and donor agencies to advance sustainable strategic partnerships at all levels in health and development.

OUR CORE VALUES: We Value:

- **Holistic Sustainable Development:** Health is critical to human, economic and sustainable development.
- **Client-Centered Services:** It is time to make a game-changing approach to improve gender equitable client-centered health awareness, literacy, and service delivery.
- **Innovative Technologies:** It is time to scale up access to quality integrated universal health through innovative technologies, including Health Kiosk Technology, telemedicine, and mobile health.
- **Equity, Effectiveness and Efficiency:** Healthcare services and products must be accessible to all, gender-equitable, cost-effective and with efficient quality care.
- **Partnership and Collaboration:** Building powerful partnerships locally, regionally and globally to enhance sustainable solutions to quality health care.
- **Integrated Health Service Delivery:** Promote evidence-based integrated health service delivery.
